## OHIO MINING JOURNAL.

---

MAY 15, 1884.

---

The papers presented to the Ohio Institute of Mining Engineers at the Columbus meeting in January last were not all printed in the February edition of the MINING JOURNAL. Those retained were papers by Prof. Orton, and William Smurthwaite, and a glossary of technical mining terms by Andrew Roy. Prof. Orton's and Mr. Smurthwaite's papers appear in this number of the JOURNAL, together with the discussion on the maps of mines by Mr. Weitzel.

The glossary of technical mining terms read by President Roy will be printed in the annual report of the Inspector of Mines, a copy of which will be sent to each member of the Institute as soon as the report comes from the press.

---

A MISTAKE occurred in the report of the proceedings of the Columbus meeting of the Institute in the occupation of one of the members elected at that meeting. W. D. Chapman, instead of Geo. P. Good, was named as the Engineer of the Columbus and Hocking Coal and Iron Company. This mistake was also carried forward into the list of members on page 95 of the MINING JOURNAL. It will be found corrected in the printed list of members in this number.
